This December more than 6,000 equine practitioners, veterinary students, technicians, exhibitors, and other industry members will head to the High Plains to discuss and learn about all things equine health. They’ll be seeking more than 100 hours of equine veterinary continuing education at the 65th annual edition of the American Association of Equine Practitioners (AAEP) Convention.

From Dec. 7 to 11, your veterinarian will be learning about skin conditions, lameness, respiratory disease, mare fertility, and much more at what has become the world’s largest continuing education event dedicated to equine practice. Attendees will also enjoy the conference’s many networking opportunities and 300-exhibitor-strong trade show featuring the latest equine veterinary products and services. Here are some special offers your practitioner will have access to while in The Mile High City. Check back on TheHorse.com to find out what vets discussed during the educational sessions.

**ADM Animal Nutrition, Booth 1622**

ADM’s equine nutritional philosophy is Forage First, ADM second. ADM says its ultra-premium blended fat and fiber-based “GLO” line of feeds contain GROSTRONG Minerals and high-quality ingredients in balanced formulas for better health and performance. GLO feeds are formulated free of cornstarch and unnecessary fillers. These fixed formula feeds utilize stabilized rice bran, a nutrient-rich, highly digestible fat and fiber source; omega-3 essential fatty acids; natural-source vitamin E, a powerful antioxidant; Prospone yeast; CitriStim, an ADM proprietary feed ingredient that may favorably impact the gut microbial population; organic trace minerals; direct fed microbials; and biotin to promote hoof growth. The GLO feeds provide controlled starch, GI-tract-enhancing solutions for almost any need, including...
broodmares, senior horses, sport horses, growing horses, metabolic issues, and trail horses, ADM adds. To locate a dealer, visit ADMequine.com. For nutritional support contact An_Equinehelp@adm.com.

American Regent Animal Health, Booth 545
American Regent Animal Health, a division of American Regent Inc., says it is committed to advancing animal health with proven FDA products, including Ad- equan i.m. (polysulfated glycosaminoglycan) and Betavet (betamethasone sodium phosphate and betamethasone acetate) injectable suspensions. Says American Equinom i.m. says it has been prescribed for more than 20 years and helped thousands of dogs lead more active lives.

The convention’s trade show features the latest equine veterinary products and services.

As a leader in health care for horses and dogs, American Regent Animal Health is proud to have been an AAEP Educational Partner since 2006. For more information visit AEAP Booth 545 or adequan.com.

ASPCA Pet Health Insurance, Booth 449
Finally, there’s horse insurance that makes sense for every horse from the ASPCA Pet Health Insurance program!

Vaccination reimbursement plans are stand-alone; no mortality insurance required, so more horses can get the insurance they need. ASPCA Pet Health Insurance makes its coverage simple and customizable so clients can choose the right kind and amount of coverage for their horse. Whether your clients choose the accident-only plan or accident + illness plan, every policy includes colic coverage. Reimbursable expenses include...
FDA-approved Altren® (altrenogest) Solution 0.22% is indicated to suppress estrus in mares. Altren is the only oral progestin available in a 150 mL single horse dosing package.

**FDA APPROVED** – quickly and safely reduces the moodiness and temperament changes often associated with estrus and keeps your mare out of heat for all her major events.

**PROVEN PERFORMANCE** – contains the same active ingredient and dosing regimen as Regu-Mate®

**ECONOMICAL PACKAGING** – unique, 150 mL individualized treatment package keeps product cost down and assures effective treatment.

Altren® (altrenogest) Solution 0.22% is contraindicated for use in mares with a previous or current history of uterine inflammation. Talk to your veterinarian about proper use and safe handling of Altren. Avoid skin contact and always wear protective gloves when administering. Pregnant women, or women who suspect they are pregnant, should not handle Altren. Refer to the package insert by visiting www.aurorapharmaceutical.com for complete product information.

**Managing Estrus to Fit Your Schedule**

For more information on Altren® consult your veterinarian or equine health care professional.

*Altren* is a Registered Trademark of Aurora Pharmaceutical, Inc.

Regu-Mate is a Registered Trademark of Merck Animal Health

**MANUFACTURED IN THE USA**

www.aurorapharmaceutical.com
those related to the diagnosis and treatment of an eligible condition, including but not limited to prescription medication, surgery, hospitalization, X rays, and anesthesia. Owners can add optional preventive care coverage for a low additional cost. Stop by the booth to learn how ASPCA Pet Health Insurance can help your clients and practice. Call 877/738-2677 or visit ProtectYourHorse.com for a Lunch and Learn or free materials.

Aurora Pharmaceutical Inc., Booth 853/952

Aurora Pharmaceutical Inc. is proud to offer horse owners its top-selling, FDA-approved Equisul-SDT (sulfadiazine/trimethoprim) and Altren (altrenogest). Sold exclusively through equine veterinarians, Equisul-SDT is proven effective in horses for the treatment of lower respiratory tract infections caused by susceptible strains of Streptococcus equi.
Osphos® (clodronate injection)

Bisphosphonate.

For use in horses only.

Brief Summary (For Full Prescribing Information, see package insert)

CAUTION: Federal (USA) law restricts this drug to use by or on the order of a licensed veterinarian.

DESCRIPTION: Clodronate disodium is a non-amino, chloro-containing bisphosphonate. Chemically, clodronate disodium is dichloromethylene diphosphonic acid disodium salt and is manufactured from the tetrahydrofuran form.

INDICATIONS: For the control of clinical signs associated with navicular syndrome in horses.

CONTRAINDICATIONS: Horses with hypersensitivity to clodronate disodium should not receive OSPHOS. Do not use in horses with impaired renal function or with a history of renal disease.

WARNINGS: Do not use in horses intended for human consumption.

HUMAN WARNINGS: Not for human use. Keep this and all drugs out of the reach of children. Consult a physician in case of accidental human exposure.

PRECAUTIONS: OSPHOS has been associated with renal toxicity.

Concurrent administration of other potentially nephrotoxic drugs should be approached with caution and renal function should be monitored. Use of bisphosphonates in patients with conditions or diseases affecting renal function is not recommended. Horses should be well hydrated prior to and after the administration of OSPHOS due to the potential for adverse renal events. Water intake and urine output should be monitored for 3-5 days post-treatment and any changes from baseline should be further evaluated. As a class, bisphosphonates may be associated with gastrointestinal and renal toxicity. Similar to drug associated adverse reactions varies with the individual patient. Renal and gastrointestinal adverse reactions may be associated with plasma concentrations of the drug. Bisphosphonates are excreted by the kidney; therefore, conditions causing renal impairment may increase plasma bisphosphonate concentrations resulting in an increased risk for adverse reactions. Concurrent administration of other potentially nephrotoxic drugs should be approached with caution and renal function should be monitored. Use of bisphosphonates in patients with conditions or diseases affecting renal function is not recommended. Administration of bisphosphonates has been associated with abdominal pain, colics, discomfort, and agitation in horses. Clinical signs usually occur shortly after drug administration and may be associated with alterations in intestinal motility. In horses treated with OSPHOS these clinical signs usually began within 2 hours of treatment. Horses should be monitored for at least 2 hours following administration of OSPHOS.

Bisphosphonates affect plasma concentrations of some minerals and electrolytes such as calcium, magnesium and potassium immediately post-treatment. With effects lasting up to several hours. Clinical signs usually occur shortly after drug administration and may be associated with alterations in intestinal motility. In horses treated with OSPHOS these clinical signs usually began within 2 hours of treatment. Horses should be monitored for at least 2 hours following administration of OSPHOS.

Bisphosphonates should not be used in pregnant or lactating mares, or mares intended for breeding. The safety of OSPHOS has not been evaluated in breeding horses less than 4 years of age. The effect of bisphosphonates on the skeleton of growing horses has not been studied; however, bisphosphonates inhibit osteoclastic activity which impacts bone turnover and may affect bone growth.

Bisphosphonates should not be used in pregnant or lactating mares, or mares intended for breeding. The safety of OSPHOS has not been evaluated in breeding horses less than 4 years of age. The effect of bisphosphonates on the skeleton of growing horses has not been studied; however, bisphosphonates inhibit osteoclastic activity which impacts bone turnover and may affect bone growth.

The intramuscular bisphosphonate injection for control of clinical signs associated with Navicular Syndrome in horses 4 years of age and older

INFORMATION FOR HORSE OWNERS: Owners should be advised to:

• Ensure horses have access to adequate water before and after administration of OSPHOS.

• Monitor water intake and urine output for 3-5 days post-treatment.

• Contact their veterinarian if the horse displays abnormal clinical signs such as changes in drinking and urination, appetite, and attitude.

subsp. zooepidemicus, the company says. Equisul-SDT is an easy-to-use, apple-flavored liquid formulation that consistently provides higher bioavailability than paste products. Aurora says Altren is the only FDA-approved generic alternative to ReguMate (altrenogest) made in the U.S. that provides safe, effective suppression of estrus in mares—95% effective after three days of treatment. Altren is the only FDA-approved altrenogest available in a safe and convenient 150-mL dosing container for easy at-home use, the company says. Each Aurora product is manufactured exclusively in the U.S. under current cGMP standards, while using state-of-the-art technology and highest proven ingredients. For more information contact Aurora Pharmaceutical at Aurorapharmaceutical.com or 888/215-1256.

**Bimeda, Booth 351**

Bimeda says it’s on a mission to help vets do what they do best: care for horses. The company provides a wide range of oral and injectable pharmaceuticals, dewormers, and supplements to help keep horses healthy and performing at their best. Bimeda’s flagship product Polyglycan, is a patented three-component formulation designed to replace lost or damaged synovial fluid. Other key products include Equimax (ivermectin/pyrantel), Tildren (tiludronate disodium), OvaMed (altrenogest), Flunazine Equine Paste (flunixin meglumine), Confidence EQ (equine pheromone 1% gel), and more. Bimeda is excited to meet with vets and celebrate the equine community at the 2019 AAEP Convention. Come by Booth 351 to learn more about the products, visit with staff, and take advantage of the last days of a special AAEP promotion and giveaways for veterinarians. Bimeda: Sound science for sound horses.

**CM Equine Products, Booth 1533**

The CM Heal Belt provides a horse with what the company, owned and operated by Tom and Bobbi Miesen, calls “the most effective belly bandage available.” The patent-protected system and treatment method is designed to help prevent post-surgical hernias and reduce existing ones. The belt saves time because it can be applied by one person, and it is cost-effective because it is durable and machine-washable and dryable, the company says. The bandage is available for patients from Mini to draft. For more information call 562/923-2868, email cmequine18@gmail.com, or visit cmequine-products.com.

**Colorado Serum Company, Booth 538**

Since 1923 Colorado Serum Company and its subsidiary, Professional Biological Company, have manufactured a line of specialty veterinary vaccines and antiserums. Colorado Serum Company is now...
Introducing DentiPod, the latest advancement in equine dental care.

As part of the revolutionary new Cuattro Hub™ portable multi-modality wireless diagnostic system, DentiPod brings intraoral Dental DR anywhere you need it. Switch between acquisition of Dental DR, Wireless Ultrasound and Large Animal DR, all on one device, at the press of a button. Call today to schedule a demo.
the sole producer of Tetanus Antitoxin and is tackling the daunting task of supplying the entire U.S. market. The company manufactures in a concentrated and purified form West Nile antibodies for treating infected horses or for short-term protection. Veterinarians can administer this product intravenously at a dosage of 10 mL per 100 pounds of body weight. For use as an aid in nonspecific treatment of equine infections and disease conditions, Normal Equine Serum provides supplemental equine albumin, globulins, and associated fluids. The company also provides Tetanus Toxoid for primary vaccinations and boosting. Visit the exhibit booth, and find more information at coloradoserum.com.

**Dechra Veterinary Products, Booths 539/639/641**

Dechra Veterinary Products, located in Overland Park, Kansas, is the U.S. sales and marketing division of Dechra Pharmaceuticals PLC, a U.K.-listed company dedicated to the animal health care market. Dechra’s equine product line includes Osphos (clodronate injection), the only intramuscular bisphosphonate indicated for the control of clinical signs associated with navicular syndrome in horses, and the regenerative products Orthokine vet irap 10 and 60 and Osteokine PRP. Other products Dechra manufactures are Equidone (domperidone) Gel, Phycox EQ and MAX EQ joint supplements, and a full line of intravenous fluids under the Vetivex trade name. Dechra also carries a full line of topical dermatology products for horses, such as MiconaHex+Triz, as well as several ophthalmic ointments, including Vetropolyclin (bacitracin-neomycin-polymyxin) veterinary ophthalmic ointment and Vetropolyclin HC (bacitracin-neomycin-polymyxin-hydrocortisone acetate 1%) veterinary ophthalmic ointment.

**Enso Discoveries, Booth 1659**

Enso Discoveries’ mission is to greatly enhance animals’ lives through the development of cutting-edge, novel technology. The company says it offers a wide range of innovative, university-backed, and affordable regenerative medicine solutions. Its patented Rebound PRP (platelet-rich plasma) kit features improvements such as:

- Collection tubes that fit into any clinic’s existing, standard centrifuge;
- A less invasive and time-consuming process—30 minutes to completion;
- Validation in five species;
- Many applications, including orthopedics, theriogenology, dentistry, etc.; and
- Use as a standalone solution or adjunct to surgery.

Vets might consider the company’s

Experts in Healthcare Equipment Financing®
What’s your vision for the future of your practice?

3 Questions to ask as you enter discussions with potential partners.

**NO. 01**
Is it the right culture fit for your team?

As you begin considering your options for selling your practice, it’s important to find a partner aligned with your values, respectful of the individuality of what you’ve built, and equipped to grow your business, while your team and culture remain intact.

Ask around to find out which buyers have the best reputation for investing in the animal health care profession, and the equine community specifically.

**NO. 02**
Do the partnership options make sense?

Because selling your practice is such a personal decision, you’ll want to understand what types of options are available, and to what level they can tailor the terms to meet your needs.

**YOUR OPTIONS:**
- Selling 100% or staying onboard in a joint venture
- Providing the opportunity for your associates to buy in
- Selling your property or renting it to the buyer

**NO. 03**
How comprehensive are the support services?

As you contemplate transitioning your business, you’ll want to know every aspect is covered. Seek out a partner with a dedicated team seasoned in everything from marketing and recruiting, to IT, HR, accounting, taxes, legal and more. Ask about access to capital for new equipment and renovations as well.

NVA has over 700 partnerships in the US, Canada, Australia and New Zealand. Our veterinarians provide a full range of medical and surgical services, and our passionate, visionary local hospital and pet resort leaders embody NVA’s unique entrepreneurial spirit. We’d be more than happy to talk through your questions and concerns. You can reach us at 888.767.7755 | info@NVA.com.
Rebound PRF (platelet-rich fibrin) kit as part of another treatment for advanced wound healing or for unusually difficult cases such as:

- Acute/chronic/nonhealing wounds;
- Graft stabilization;
- Burns;
- Dental surgery; and
- Bone regeneration.

Enso Discoveries is a veteran-owned business with products and services developed by veterinarians for veterinarians here in the U.S.

Heska, Booth 1033

Heska Corporation, provider of Lab Diagnostics and High Definition Imaging, now provides a full suite of equine diagnostic tools, from the convenient Cuattro Hub Portable Digital Imaging System to a new line of Optomed endoscopy products. Visit booth 1033 to see the breadth of Heska’s equine offerings, including what the company says is the world’s first and only intraoral equine dental digital radiography (DR) solution, the DentiPod.

AAEP BOOTH #359

800.268.5354
EQUINE.SOUNDVET.COM
Kentucky Performance Products LLC, Booths 1333/1335

Kentucky Performance Products LLC, the maker of Elevate and Neigh-Lox, is excited to highlight a powerful tool in the fight against metabolic syndrome in horses: the patent-pending InsulinWise. The company says the propriety blend of ingredients in InsulinWise is research-proven to support healthy insulin sensitivity. Decreasing insulin dysregulation can provide a clinical benefit by reducing the risk of laminitis. InsulinWise is a veterinarian-only supplement offered through Kentucky Performance Products’ Wiser Concepts line of products. Supporting research utilizing the ingredients in InsulinWise was conducted by an independent university and presented at the 2018 AAEP Convention. Learn how to add InsulinWise to your treatment plan by visiting the Kentucky Performance Products booth. There, product experts will answer any questions you may have. Information will also be available about Wiser Concepts’ full line of veterinarian-only products, including ProbioticWise and BoneWise, among others. Visit KPPvet.com to learn more.

Larson Laboratories, Booths 1626/1628

The founder of Larson Laboratories and creator of Vetline, Dr. Kenneth Larson, had a tireless dedication to equine health and formulated an array of supplements through research to better the equine community. Xxterra is an herbal paste used for the treatment of equine sarcoids. The company says Xxterra stimulates the horse’s immune system, preventing the need for surgery or other invasive treatment options. Race Today is a supplement that combats the effects of EIPH. Larson Laboratories says its unique and one-of-a-kind blend strengthens the alveolar-capillary barrier, making horses’ lungs stronger and preventing them from bleeding. Equilytes is a patented product that is pre-chelated, allowing it to enter the bloodstream in less than 5 minutes. EqVital is a vitamin and mineral supplement specifically designed to keep horses healthy during vigorous training. Vetline, as a part of Larson Laboratories, boasts a line of long-standing, successful supplements for training, competition, and maintenance horses.
NVA Equine, Booths 330/332
A longstanding industry leader, NVA partners with over 700 flourishing veterinary practices in the U.S., Canada, Australia, and New Zealand. Its veterinarians provide a full range of medical and surgical services, and its passionate, visionary local hospital and pet resort leaders embody NVAs unique entrepreneurial spirit. The company’s mission is “to improve the comfort and well-being of pets by providing progressive and compassionate care.” NVA Equine is a community unified by the love of animals and the people who love them.

OnePlace Capital, Booth 1557
Small company execution, big company capabilities, entrepreneurial spirit. With over 75 years of equipment finance experience, OnePlace Capital says it’s the expert in serving veterinary clinics nationwide. The company says it provides straightforward finance solutions, quick turnaround time, and an unparalleled customer experience so you can focus on doing what you do best: helping your patients.

What sets OnePlace Capital apart from other finance companies? They say they deliver flexibility and offer loans, not leases. Their finance agreement has no prepayment penalties, allowing you to pay off your equipment at any time with no penalty or future interest owed. You’ll also have the flexibility to make extra payments toward principal at any time. OnePlace Capital designed its finance agreement specifically for veterinary practices. Not only does it bring the bank to you, but its...
Adequan® i.m. is still the only FDA-Approved equine intramuscular PSGAG prescription available. And still the only one proven to:

- **Restore** synovial joint lubrication
- **Repair** joint cartilage
- **Reverse** the disease cycle
- **Reduce** inflammation

Adequan® i.m. actually treats degenerative joint disease, and not just the signs. Ask your veterinarian if Adequan® i.m. is the right choice for your horse. Learn more at adequan.com.

**BRIEF SUMMARY:** Prior to use please consult the product insert, a summary of which follows:

**CAUTION:** Federal law restricts this drug to use by or on the order of a licensed veterinarian. **INDICATIONS:** Adequan® i.m. is recommended for the intramuscular treatment of non-infectious degenerative and/or traumatic joint dysfunction and associated lameness of the carpal and hock joints in horses. **CONTRAINDICATIONS:** There are no known contraindications to the use of intramuscular Polysulfated Glycosaminoglycan. **WARNINGS:** Do not use in horses intended for human consumption. Not for use in humans. Keep this and all medications out of the reach of children. **PRECAUTIONS:** The safe use of Adequan® i.m. in horses used for breeding purposes, during pregnancy, or in lactating mares has not been evaluated. **Platinum Performance, Booth 337**

Which foundation formula is right for each of your patients? Three veterinary developed Platinum Performance foundation formulas provide support for every aspect of horse health, from head to hoof, the company says. Platinum Performance Equine provides the omega-3 fatty acids, vitamins, trace minerals, antioxidants, and amino acids to maintain health and support performance. With emphasis on joint and connective tissue health, Platinum Performance CJ contains all those ingredients plus additional levels of support in the form of ASU, hyaluronic acid, cetyl-myristoleate, MSM, and additional glucosamine to help maintain mobility and athleticism. For horses with digestive health issues, the company says Platinum Performance GI provides all the wellness support of the original formula, along with prebiotics, probiotics, and glutamine to help maintain healthy digestion and immunity. Ask a Platinum Advisor for a trial of these formulas for use in your practice. Contact 800/553-2400, or visit PlatinumPerformance.com

**PulseVet, Booths 1627/1726**

PulseVet, the global leader in veterinary shock wave technology, manufactures the ProPulse and VersaTron shock wave devices and trodes, which the company says are backed by over 15 years of proven clinical research. The ProPulse is a smaller, faster, more powerful, and more user-friendly version of PulseVet’s industry-leading VersaTron. The company says shock wave technology is a noninvasive, high-energy sound wave therapy that can improve a horse's performance, significantly accelerate healing time following musculoskeletal or soft tissue injuries, and assist with wound or bone healing. PulseVet is the official shock wave provider for US Equestrian, NCHA, NSBA, and the Western Pleasure Super Sires. The company is also a proud Global Sponsor of ISELP and says it’s utilized by leading veterinary clinics and universities worldwide. Stop by Booth 1627 while at the AAEP Annual Convention, visit PulseVet.com, or call 678/987-5100.

**SmartPak, Booths 1045/1144**

SmartPak is pleased to announce that ColiCare, the company’s FREE colic surgery reimbursement program, is now even better, with a new reimbursement amount of up to $10,000. Since 2012, SmartPak says ColiCare has supported healthy horses and healthy veterinary practices by putting veterinarians back at the center of their patients’ care. ColiCare combines annual wellness services from the veterinarian with daily administration of select digestive support supplements from SmartPak. Clients can easily enroll their horses in the program with no paperwork required from the vet. Horses owned by vets are also eligible to apply for ColiCare! Signing up for ColiCare is easy and can be done over the phone or at SmartPak.com/ColiCare. Visit booth 1045 at AAEP to learn how SmartPak, a Covetrus company, and ColiCare, the #1 Veterinarian-Recommended Colic Surgery Reimbursement Program, can add even more value to your practice’s existing wellness services.

**SOUND/ANTECH, Booth 359**

SOUND, the pioneer of veterinary DR and creator of NEXT Equine DR, is the exclusive provider of GE Ultrasound and Samsung Mobile CT systems for the U.S. veterinary market. SOUND also innovated Regenerative Laser Therapy, which it says has helped countless horses get back to work and into the winner’s circle. For 30 years, Antech Diagnostics has been the standard for reference laboratory excellence. It’s North America’s largest reference laboratory network, with more than 65 state-of-the-art reference laboratories. The company says it’s proud to have a world-class team of veterinary professionals at your side putting you first with excellent customer service. It leverages innovative technology, peer-to-peer case support, outstanding turnaround time, and a world-class team of board-certified specialists and pathologists for expert consulting. At the heart of the company is a love for pets and their health and well-being. 🔍
