FARRIER/TRIMMER \_\_\_\_\_ PHONE \_\_\_\_\_

Horses require regular hoof care to keep them sound and healthy. Veterinarians, farriers, and hoof trimmers recommend keeping the average horse on a four-to-six-week trim and/or shoeing schedule. Horses with certain foot conditions, such as navicular issues or laminitis, might need more frequent hoof care. For more information, visit [TheHorse.com/topics/hoof-care](https://TheHorse.com/topics/hoof-care).
