

Don't let 2021 come to a close without stocking up on all your veterinary necessities.

Receive end-of-year specials on tried-and-true items, catch the year's best product launches, and learn about exciting supplies and equipment to come from these companies.

Equine Practitioner

PRODUCT GUIDE

AMY K. DRAGOO

ADM

Demands of exercise are a stressor for the performance horse. Heavy work can overwhelm the body's natural ability to deal with oxidative stress, which can damage muscle proteins, lipids, and DNA, release pro-inflammatory cytokines leading to muscle pain, and damage the mitochondrial membrane, decreasing energy production. Performance Advantage RECOVERY+ was designed to help the performance horse combat the stress of exercise.

Visit [Go.ADM.com/PerformanceAdvantage](https://www.adm.com/PerformanceAdvantage) for more information.

Alltech

At Alltech, equine nutrition isn't just our job—it's our passion. Through decades of scientific research and in-house equine expertise, we have crafted a wide range of high-quality feeds and feed additives, in addition to our newly revised line of Lifeforce premium equine supplements.

Learn more at [AlltechEquine.com](https://www.alltech.com).

Animal Behavior Institute: Equine Behavior & Training Programs – Online Learning

The Animal Behavior Institute is the leading provider of online equine training programs, offering courses in training, behavior, health, nutrition, and business management. Complete your program in as little as six months.

ASPCA Pet Health Insurance

Finally there's horse insurance that makes sense for every horse from the ASPCA Pet Health Insurance program! Veterinary reimbursement plans are standalone; no mortality insurance required. Visit protectyourhorse.com. The ASPCA is not an insurer. Insurance underwritten by the United States Fire Insurance Company, produced by C&F Insurance Agency Inc.

ProtectYourHorse.com

Astaria Global

Astaria Global is an innovative company providing world-class orthobiologic therapies to animals. Our patented equine plasma technology, Alpha2EQ, is an extraordinary advancement in equine lameness and osteoarthritis science that unlocks the healing powers of Alpha-2 Macroglobulin, a naturally occurring molecule in the horse's bloodstream.

Visit astariaglobal.com to learn more.

Aurora Pharmaceuticals

Being veterinarian-owned, we strive to raise the quality of life for veterinarians, owners, and animals through continual research on products that continues long after marketing. When a veterinarian sees the Aurora brand, he or she feels confident in the quality and efficacy of the product.

aurorapharmaceutical.com

Boehringer Ingelheim Equine

Whether they're competitors or trail companions, horses require a level of care that is nothing less than an art form. As the global leader in horse health, Boehringer Ingelheim is perfecting that art through veterinary leadership and groundbreaking science.

For more information about our product portfolio and our commitment to veterinary medicine, visit bi-vetmedica.com. Visit us during AAEP at Booth #1437 and #1545.

Butterfly Network

Butterfly Network has created the world's first hand-held, multispecies, whole-body ultrasound probe for veterinary use: Butterfly iQ Vet. This innovative device miniaturizes the full traditional ultrasound system onto a single semiconductor silicon chip, making ultrasound more affordable and easier to use than ever. vet.butterflynetwork.com

CareCredit

CareCredit helps bridge the gap between cost and care, and it helps support a healthy financial relationship between veterinarians and horse owners. With a CareCredit credit card, clients can simply pay at the time of service for the recommended care their horse needs, and the practice gets paid quickly.
